PROFESSIONAL SUMMARY

Junior frontend developer who builds and ships responsive web applications with React, JavaScript, Next.js, and TypeScript, backed by Supabase/PostgreSQL, REST APIs, authentication, and payments. Built and launched PawCircle Membership end to end, completed a paid frontend internship building Skinstric, and delivered API-driven projects including Ultraverse and Summarist. Former science educator, technical writer, and small-business owner with strong communication and practical problem-solving skills.

TECHNICAL SKILLS

Core: JavaScript | TypeScript | React | Next.js | HTML5 | CSS3 | Tailwind CSS | React Router | Redux Toolkit
Backend & Data: REST APIs | Axios | Supabase | PostgreSQL | Firebase Authentication | Firestore | Stripe
Tools & Quality: Git | GitHub | Vercel | Vite | Figma | VS Code | Responsive/Mobile-First Design | Accessibility | Lighthouse

SELECTED DEVELOPMENT PROJECTS

PawCircle Membership Full-stack production app

- Built and launched a responsive React application using Supabase/PostgreSQL, Stripe, and Vercel with authentication, role-based profiles, protected directories, messaging, privacy controls, and payment workflows; later converted it into an interactive portfolio demo.

Skinstric - Paid Frontend Internship Next.js / TypeScript

- Implemented a responsive skin-analysis flow from supplied Figma designs and APIs, including validated intake, gallery/camera capture, Base64 conversion, browser permissions, editable results, responsive testing, and Vercel deployment.

Ultraverse NFT Marketplace React / API project

- Built API-driven marketplace views with reusable components, loading skeletons, responsive carousels, countdown timers, sorting/filtering, incremental loading, and React Router navigation.

Summarist Next.js / Firebase project

- Completed a multi-route book-summary application with Firebase Authentication, Firestore persistence, Redux Toolkit state, debounced search, protected/premium states, dynamic routes, and an audio player.

PROFESSIONAL EXPERIENCE

Frontend Developer Intern - Frontend Simplified 2026

- Completed a paid frontend internship delivering Skinstric from supplied requirements and designs, using Git/GitHub throughout development, testing, and deployment.

Founder & Owner - PawCircle LLC 2023 - Present

- Run an independent pet-care business with approximately 95% repeat business, managing client communication, scheduling, changing requirements, troubleshooting, and day-to-day operations.

Earlier Professional Experience

- Science educator (11 years), technical writer/document control, and Tier 1 internet support; developed clear communication, documentation, training, and technical problem-solving skills.

EDUCATION

Frontend Simplified | Frontend Development Program - Completed 2026
B.S., Elementary Education, Summa Cum Laude - St. Cloud State University
M.S., Women's Studies; B.S., Sociology & Women's Studies - Minnesota State University, Mankato
